

❖ **Oceans and Wetlands**

- Maintaining or improving the quality of wetlands
- Conservation and restoration of wetland habitats
- Improved understanding of ocean and wetland habitats and functions

❖ **Public Access and Land Conservation**

- Add or enhance physical access for the public to coastal water resources (i.e. rivers, wetlands, beaches)
- Public access planning
- Conservation of riparian habitats through acquisition
- Land conservation, preservation, and/or management, especially for SLR retreat
- Analysis of land conservation needs and opportunities for habitat protection

❖ **Sustainable Communities**

- Strengthen local capacity to implement sustainable approaches in planning and development
- Increase understanding of costs and benefits associated with sustainable approaches to coastal development
- Identification and preservation of unique community qualities, historical and cultural features, including public education of the above

❖ **Disaster Resiliency and Coastal Hazards**

- Improve understanding of coastal hazards and potential impacts
- Develop, implement or incorporate adaptation and mitigation strategies/plans or policies
- Strengthen local capacity to implement FEMA's Community Rating System

❖ **Non-Point Source Pollution**

- Improvements to existing urban runoff control structures in coastal watersheds
- Projects that address stormwater quantity and quality improvements utilizing BMPs recommended by the Georgia Coastal Stormwater Supplement
