Beach Advisory Lifted for North Beach on Jekyll Island

GLYNN COUNTY, GA – The Glynn County Health Department has lifted the advisory for North Beach at Dexter Lane, which is from Tallu Fish Lane to Brice Lane on Jekyll Island.

The advisory was issued on November 24, 2020 after routine water quality tests showed a high level of enterococci bacteria which increase the risk of gastrointestinal illness in swimmers.

Subsequent water samples show the bacteria level has dropped below the Environmental Protection Agency’s recommended limits. Therefore, the advisory has been lifted.

For more information about beach water advisories, go to www.gachd.org and click on the Environmental Health tab at the top of the page.
