Beach Advisory Lifted for South Beach on Tybee Island

CHATHAM COUNTY, GA – The Chatham County Health Department has lifted the beach water advisory for South Beach at Chatham Street, which is from 18th Street to the Inlet Avenue on Tybee Island.

The advisory was issued on December 1, 2020 after routine water quality tests showed a high level of enterococci bacteria which increase the risk of gastrointestinal illness in swimmers.

Subsequent water samples showed the bacteria levels had dropped below Environmental Protection Agency's recommended limits. Therefore, the advisory has been lifted.

For more information about beach water advisories, go to www.gachd.org and click on the Environmental Health tab at the top of the page.
