Beach Advisories Lifted for St. Simons Island

GLYNN COUNTY, GA – The Glynn County Health Department has lifted the beach water advisories for South Beach at the Lighthouse and North Beach at Goulds Inlet on St. Simons Island.

The advisories were issued on March 23, 2021 after routine water quality tests showed a high level of enterococci bacteria which increase the risk of gastrointestinal illness in swimmers.

Subsequent water samples taken showed that the bacteria levels had dropped below Environmental Protection Agency’s recommended limits. Therefore, the advisories have been lifted.

For more information about beach water advisories, go to www.gachd.org and click on the Environmental Health tab at the top of the page.
