## Beach Advisory Lifted on Tybee Island

**CHATHAM COUNTY, GA** – The Chatham County Health Department has lifted the beach water advisory for Tybee South Beach at Chatham Street, which extends from 18<sup>th</sup> Street to Inlet Avenue on Tybee Island.

The advisory was issued on April 19, 2022, after routine water quality tests showed a high level of enterococci bacteria which increase the risk of gastrointestinal illness in swimmers.

Subsequent water samples showed the bacteria levels had dropped below Environmental Protection Agency's recommended limits. Therefore, the advisory has been lifted.

For more information about beach water advisories, go to [www.gachd.org](http://www.gachd.org) and click on the Environmental Health tab at the top of the page.
