HOA letter

Georgia Department of Natural Resources

c/o Jessica Moody

One Conservation Way, Suite 300

Brunswick, GA 31520-8687

Ms. Moody, this is a letter of support from the Dolphin Island Preservation Home Owners Association President, William Muse, for a boat hoist on Dolphin Island. The lot owners of Dolphin Island voted to pursue engineering and permitting of a boat hoist in 2018. It took some time to locate an engineer and construction contractor. We understand the permit is under consideration by DNR. We were asked to provide this letter and any supporting documentation that a hoist was planned for the Island by the developers. The development company has since gone bankrupt. The HOA is functioning as it should and continues to maintain the island, water facility, sewage facility, and maintenance. We are also involved in the process to stimulate more home construction on the island.

The first person to purchase a home on the island, Shakel Sulat, stated that he was under the impression from the developers that a boat hoist was planned. David Turner another early purchaser of a home on the island and Mr. Sulat remember a sign at the concrete bulkhead to the right of Preservation Drive just after crossing the bridge to the island, stating Future Site of Boat Hoist. We do not have a lot of written material from the developers. After a search of files remaining in the Clubhouse on Preservation Drive we were able to locate one document addressed to Ms. Susan Shipman dated September 16, 2008 regarding an application for a permit to modify three existing docks and expansion of the access bridge to the island. Please find this document attached. The second page of the document, Coastal Marina, Community, Or Commercial Dock Checklist has a section, Existing or Planned Services in Jurisdiction, has an option for a boat hoist. That box is clearly checked on the form.

Our Island is growing slowly but it is growing. The lot and homeowners clearly want to have access to a place to launch boats that is accessible to the residents. We only have two choices for launching a boat. The first is only a couple of miles away at Jones Creek. Only small boats may be launched there and only at high tide. The ramp is so narrow that a nine foot wide trailer will barely fit. Our second option is 12

miles away in Sunbury. There is good access there but no room to park more than 10 trailers. We need to have a boat hoist facility on the island.

Sincerely,

William Muse, President Dolphin Island Homeowners Association
