

- 9.12.1 The proposed project will not adversely impact flow of navigable waters or obstruct public navigation. The intention is to increase flow within the system
- 9.12.2 The proposed project will not increase erosion, shoaling of channels, or create stagnant areas of water
- 9.12.3 The proposed project will not interfere with the conservation of fish, shrimp, oysters, crabs, clams, or other marine life, or wildlife, or other resources, including but not limited to water and oxygen supply
