Dear Mr. Ansley,

Please find enclosed the requested information for the black sea bass that I caught with Steve Amick Charters. The second picture is of my son, William, holding the big fish. It was a good day fishing.

I have been deep sea fishing since I was a high school student. I enjoy being out on the ocean and catching fish. My first trips out of Savannah were on the Neva Miss charters and since that time they have been with Steve. I have better catches out of Savannah rather than Charleston.

When I went to get the fish weighed on the day after catching it, I expected a something in the range of 7 lbs. since that was the result of weighing it on the boat. I did not realize the fish dehydrate so quickly. However, I am following up on our discussion and submitting the information.

Thank you for your attention to this matter.

Sincerely,

Willie J. Oakman

Mr. Willie J. Oakman

Beech Island, South Carolina 29841

Dear Mr. Oakman:

I wish to personally congratulate you on your exceptional catch, which has been accepted as a Georgia Saltwater Gamefish Record and ties the existing men's record for black sea bass. Under the program's rules and regulations, your catch would have to weigh at least 4 ounces more than the existing record to replace it. Since your entry only exceeds the existing record by 1 ounce, it could not officially break the record.

Enclosed is a certificate that serves not only to recognize the size of the catch, but also the angler's skill and the sportmanship displayed in the landing of a gamefish record. Again, congratulations on your achievement, and thank you for your participation in Georgia's Saltwater Gamefish Records Program.

Sincerely,

Duane Harris
