**Health Department Issues Advisory for South Dunes Picnic Area Beach on Jekyll Island**

**GLYNN COUNTY, GA** – The Glynn County Health Department has placed the South Dunes picnic area beach on Jekyll Island (from the beach deck to south water tower) has been placed under advisory by the Glynn County Health Department.

Routine water quality tests from samples taken June 21 show the beach water in this area contains a high level of enterococci bacteria, which increase the risk of gastrointestinal illness in swimmers.

The Glynn County Health Department recommends you do not swim or wade in the water in this area. Fish and other seafood caught from this area should be thoroughly washed with fresh water and thoroughly cooked before eating.

The area will be retested and the advisory will be lifted when tests show the bacteria levels meet the Environmental Protection Agency's recommended standard.
