### **Advisory Issued for Contentment Bluff Sandbar**

**MCINTOSH COUNTY, GA** – The McIntosh County Health Department has issued an advisory for Contentment Bluff Sandbar (Julienton River from confluence of Broad and Julienton Rivers to one mile upriver) in McIntosh County.

This advisory is only for the area specified above and does not impact any other areas. This beach water advisory is to alert the public of a possible risk of illness associated with water contact but does not mean the beach is closed.

The McIntosh County Health Department recommends you do not swim or wade in the water in the area(s) under advisory. Fish and other seafood caught from this area should be thoroughly washed with fresh water and thoroughly cooked before eating as should fish or seafood caught from any waters.

The area will be retested and the advisory will be lifted when tests show the bacteria levels meet the Environmental Protection Agency's recommended standards.

For more information about beach water advisories, go to [www.gachd.org](http://www.gachd.org) and click on the Environmental Health tab at the top of the page.
